

## Clear Value with Medica Fact Sheet (Accountable Care System Product)

### Overview

Clear Value with Medica is an innovative collaboration between Hennepin Healthcare and Medica that is pioneering new ways of delivering care that will provide better experiences for members. By delivering high-quality care with a coordinated approach between insurance coverage and patient care delivery, the health care process is simplified and lowers costs for consumers.

Clear Value with Medica is an open-access product that utilizes the Clear Value with Medica network. No referral is needed to see participating Clear Value with Medica providers. Members can also access non-Clear Value providers, but may have higher deductibles and out-of-pocket expenses than for in-network providers. To verify which providers are included in this product's network, [see the provider directory on Medica.com](http://www.medicacom.com/provider-directory).
