Primary Health System (PHS)

Members enrolled in a Medica Medicare Advantage plan may select a Primary Health System (PHS) from which to receive care. A PHS is a group of network doctors and health care professionals who can help manage a member's total health, from getting needed preventive screenings and care to coordinating care for multiple health conditions. Members may still get care from other in-network doctors and health care professionals at no additional cost and do not need a referral for covered services.

The member's PHS is identified on their Medica ID card just below their name.
